London, UK

## Work History

### UNICEF - Student Project (Team Project)
Website Creation - Moonlight Engine
During my first year at UCL we were tasked with working on the creation of a website with UNICEF.

### Microsoft - Student Project (Team Project)
Website Creation - Fizzyo Framework
During my second year at UCL we were tasked with the expansion of the Fizzyo platform. For this project we worked on Website front end, technical documentation and Unity packages.

### Asociacion Orlanda - Volunteer
Tournament Organiser and Manager

## Education

### Spanish Baccalaureate - Grade: 12,7 / 14
The English Montessori School, ended 2016

### University College London - Computer Science
Started 2016, First in Year One and Two

### Cambridge English Proficiency (CPE) - Grade B

### French DELF B2 Level - Pass
Additionally, I have taken various IGCSE and A level examinations with great results. I was awarded the "Outstanding Cambridge Learner" awards for both IGCSE Computer Studies and A Level Spanish.

## Programming Skills

High Level: Java, C, HTML, JavaScript

Medium Level: CSS, PHP, MySQL, Azure, NodeJS, R

Basic Level: Haskell, Ruby, C#

## Background

I have two years of experience in the core web technologies (JavaScript, HTML, CSS, PHP), imperative languages (C, Java and Ruby). I have great passion for video games and have developed a small game on Android using Visual Studio. Traveling is also another one of my biggest passions, I hope to travel around the world and keep exploring new cultures and ideas.
